Local and Miscellaneous.

Cleveland is already satiated with

immature veal.

A party of young people go sleigh-

riding to Elyria this evening.

I. A. Webster has severed his con-

nection with the Oberlin News.

Arch. L. Willard, of Burton, Ohio,

is spending a few days in town.

For sale.—Tables, Show-cases and

writing-desks. 1711 A. M. Fitch.

The next Northern Ohio Fair is to

be held the first week of September, '79.

Miss Jessie Wolcott is spending a

few weeks with relatives in Norwalk.

Carl Palmer is enjoying himself

visiting friends in the Western States.

D. L. Wadsworth, Esq., attended

the Jacksonian Convention at Colum-

bus.

Elyria has a gas and water com-

pany organized and has the works far

under way.

Scarlet fever and diphtheria of a

very malignant character prevail in

New York City.

The Methodists of New London in-

tend soon to put from \$7,000 to \$8,000 in-

to a new church.

The R. & A. Beros says that two

children of John Spear, died of dipht-

heria last week.

Miss Clara Harley, of Norwalk, is

the guest of her friend Mrs. Ida Per-

kins, of Taylor St.

Remember the Lecture by Dr.

Haydn next Monday evening at the

Congregational Church.

P. M. Ogden mailed from this office

last Saturday 2,500 letters. What town

is its size can best tell?

Don't fail to hear Rev. Dr. Haydn's

lecture on "An Edinburgh Celebri-

ty" next Monday evening.

The week of prayer was observed

here, the services being held alternately

at the different churches.

Many of our items should have ap-

peared last week but were crowded out

by matters that could not lie over.

From the Elyria Republican we

learn that city lodged and fed 111

tramps during the month of December.

Miss Stella Fournier, a graduate of

Baldwin University, is teaching the A

Primary Department of our schools.

All the congregations united in

services at the Methodist church Sun-

day evening making a very full house.

There is not that rush this year on

the part of the factory-men to secure

patrons as has been noticed in former

days.

The tendency of neighbor Buncle's

long strips of sweetness to curl at the

ends, indicates that mercury inclines

upward.

Wellington entirely omitted to ob-

serve the fashion of making calls on

New Year's day for the first time in

four years.

We have rarely had so good a run

of sleighing as for the last two weeks

and all classes are trying to make the

most of it.

Frank Carman, of Beros, has be-

come a pupil in the Department of the

Navy, and gone on board a U. S. school

ship, the Saratoga.

Our carriage shops are running a

full force of hands in the manufacture

of sleighs and cutters and cannot keep

up with the demand.

We hear that scarlet fever is pre-

valing to some extent among the chil-

dren of the village, though no cases are

yet reported as serious.

Our last issue contained an unusu-

ally large number of marriage notices.

Times are improving and we can afford

to indulge in luxuries.

Over fifty loaded freight cars stand

up on the side-tracks at this station, the

blockade east and west rendering their

forwarding impossible.

The Mayor has announced by pos-

ters that the ordinance requiring the

walks to be cleaned of snow will here-

after be rigidly enforced.

Installation of officers of "Halo

Morandi Lodge, No. 1060, Knights of

Honor," of Wellington was held Wed-

nesday evening in their hall.

Newspaper advertising compels in-

quiry, and when the article offered is of

good quality and at a fair price, the nat-

ural result is increased sales.

Deacon Philip Goss, many years a

resident of Brighton died last Monday

night at the residence of his son-in-

law Chas. Beach, of this place.

Those of our subscribers who ex-

pect to bring us seasoned 18-inch wood

on subscription are reminded that now

is a favorable time to deliver it.

Lost—A lady's fur muff. The

finder will please return the same to me

or leave at the Enterprise office.

1711 A. M. W. R. WAX.

Rev. Mr. Chittenden of Fremont,

who formerly preached for the Episco-

palian Society of Elyria, Grafton and

Penfield exchanged pulpits with Rev.

Judd, of Oberlin, last Sunday.

Attention is called to the cards on

local page of Messrs. Morgan &

Knowles, who have lately suffered by

fire, were insured in the Ohio Farmers'

Insurance Co., and have already received

their indemnity. "By their fruits

ye shall know them."

Two communications with refer-

ence to the Dairymen's Convention

were handed in after our space was all

taken up, and will appear next week.

One evening last week Edith Parker

a daughter of S. S. Parker was taking a

race about the rooms of her home, for a

constitutional and while going at a 2-40

pace she caught against the carpet

and fell full length and face against

the glass of a ash door leading

to the porch, breaking out a place 10x25

and scattering fragments of glass ten

feet away, but inflicting only slight

wounds in her hands and face. It might

be considered a miracle that she was

not seriously cut with the broken glass.

Uranine.

This is the most recently discovered,

and perhaps the most remarkable, of all

the coal tar or aniline group of coloring

substances, now so extensively used for

the adornment of the finest fabrics. Ur-

anine is said, by chemists, to be the

most highly fluorescent body known to

science. Its coloring power is astonishing—

singling grain will impart a marked

color to nearly five hundred gallons of

water.

A most interesting experiment, in

which anybody may try, consists in

sprinkling a few atoms of Uranine up-

on the surface of water in a glass tumb-

ler. Each atom immediately sends

down through the water what appears

to be a bright green rootlet; and the

tumbler soon looks as if it were crowd-

ed full of beautiful plants. The rootlets

now begin to enlarge, spread and com-

bine, until we have a mass of soft

green-colored liquid. Viewed by trans-

mitted light, the color changes to a

bright golden or amber hue; while a

combination of green and golden will

be realized, according to the position in

which the glass is held. For day or

evening experiment nothing can be

more than these trials of Uranine,

which are especially entertaining for

young folks. We are indebted for

specimens of color to editors of the Sci-

entific American, who are sending out

specimens, free of charge, to all their

readers. The subscription to the pa-

per is \$3.50 for a year, or \$1.60 half year

and a better investment for the money

could hardly be made.

Cards of Thanks.

On the 5th of November, 1879, my

wife and contents were destroyed by

fire. It was insured in the Ohio Farm-

ers' Insurance Company. The loss was

promptly and honorably adjusted, and

the full amount of insurance amount-

ing to \$1802.50 was paid thirty days be-

fore due. I take this method of return-

ing my thanks to the company and cheer-

fully recommend the same to all de-ir-

ing insurance. DAVID MORGAN.

Camden, Ohio, Jan. 11th, 1879.

The Ohio Farmers' Insurance Co., will

please accept my thanks for the honor-

able adjustment and prompt payment

of my loss by fire Oct. 3d, 1878 by which

lost my barn and contents. The in-

surance amounting to \$1093.35 was paid

in full. The fair dealing of this com-

pany for thirty years as many in Lorain

Co., can attest, is sufficient to recom-

mend it to all desiring good insurance.

Life a Burden.

So say the sufferers from that

loathsome disease, catarrh. The burden

may be lifted, and life made enjoyable

by using the Constitutional Catarrh

Remedy. For sale by Everett & Starr,

Wellington, O., and by Strong, Cobb

& Co. Cleveland, Ohio.

Newburgh, O., June 1, 1874.

PETER LAWSON, Esq.—Dear Sir: I

am urged by a friend to try "Lawson's

Remedy," as I have often been afflicted

with rheumatism. I am happy to say

that it afforded me immediate com-

plete relief. I have also seen it tried in

cases of Sore Throat, Toothache and Neu-

ralgia, and with success. I give this cheer-

fully, as I feel that this remedy should

be known to all. Yours truly,

Mrs. H. P. WAX.

My Dear Doctor—A few weeks

since I had a conversation with my jas-

trous as to a paralytic brother-in-law.

He was stricken paralytically about

two years ago; the right arm entirely

paralyzed, including the right arm and

right leg. He had not earned a penny

during the time; at my request he pur-

chased and used a bottle of your Iodide

of Ammonia; before the bottle was one-

half used, he could raise his arm and

control his leg. He continued the ap-

plication until he had used a second

bottle, and is earning two dollars a day

and keeps up his work well. Use this

certificate as you please.

Very truly, Geo. G. SICKLES.
